**Exegy Chief Scientist Scott Parsons to Speak  
at High Performance on Wall Street**

**St. Louis, MO – Sept. 2, 2008 – Exegy, Inc.**, the innovator behind the Exegy Ticker Plant ([www.exegy.com/tickerplant](http://www.exegy.com/tickerplant)), announced today that Exegy Chief Scientist and Chief Architect Scott Parsons will speak at the 2008 High Performance on Wall Street conference ([www.highperformanceonwallstreet.com](http://www.highperformanceonwallstreet.com)) at the Roosevelt Hotel in New York on Sept. 22.

The panel, called “Applying Hardware Acceleration to Financial Markets Applications,” will focus on the growing demand for hardware acceleration in the financial markets. The discussion will consider how to get the best out of hardware acceleration to boost application performance.

In addition to Parsons, participants on the 2:30 p.m. panel include: Shawn McAllister, Vice President, Architecture, Solace Systems, and Henry Young, Founder and Director TS-Associates. Geno Valente, Vice President, Sales and Marketing, Xtreme Data, will moderate the panel.

## About Exegy, Inc.:

Exegy provides ultra-high performance hardware-accelerated computing appliances ([www.exegy.com/tickerplant](http://www.exegy.com/tickerplant)) that efficiently process and enrich market data for the world's leading financial organizations. Exegy's unique market data products respond to financial organizations' growing demands for low latency, reduced cost of ownership and flexibility. They easily integrate into existing infrastructures and are compatible with leading operating systems and interconnects. For more information, please visit [www.exegy.com](http://www.exegy.com).
