Exegy's Low Latency now available for Canada's Pure Trading

St. Louis, MO – Nov. 2, 2009 – Exegy Incorporated, the ultra-high performance market data appliance company, has announced that the Exegy Ticker Plant now has built-in feed handlers to process data from the Pure Trading facility of CNSX Markets Inc. This means that high frequency traders are now able to access this trading venue using Exegy's hardware-accelerated market data appliance.

CNSX Markets Inc. is a fully recognized stock exchange in Canada that also operates the Canadian National Stock Exchange. Pure Trading offers a competitive alternative auction market system aimed at attracting high frequency traders interested in securities listed on Canadian exchanges.

"With an increasing number of high frequency trading customers seeking to extend their reach to Canada, currently the world's fourth largest trading market, we have responded by offering ultra low latency delivery of Pure Trading data," said Jeff Wells, Vice President of Product Management at Exegy. "Customers are now looking to continue the success they have enjoyed with the Exegy Ticker Plant in the US into the vibrant markets in Canada".

"We are pleased that Exegy is providing its high frequency trading clients with access to Pure Trading," said Richard Carleton, Vice President Corporate Development of CNSX Markets Inc. "The ability to obtain fast direct feed data from Pure Trading will continue to be important to market participants as we continue to attract more and more high frequency traders to the Canadian market."

About Exegy, Inc.

Exegy provides ultra-high performance hardware-accelerated computing appliances (www.exegy.com/tickerplant) that efficiently process and enrich market data for the world's leading financial organizations. Exegy's unique market data products respond to financial organizations' growing demands for low latency, reduced cost of ownership, and flexibility. Exegy's products are compatible with leading operating systems and interconnects. For more information, please visit www.exegy.com.

About Pure Trading

Pure Trading provides an effective and cost efficient alternative for the trading of Canadian equity securities. It is the second major initiative of CNSX Markets Inc., which launched the first new Canadian stock exchange in over 70 years in 2003 (the Canadian National Stock Exchange), and which continues to steadily add to its complement of listed companies, participating dealers and trading volumes. For more information please visit the websites at www.puretrading.ca and www.cnsx.ca.
